DO YOU NEED HELP PAYING FOR TELEPHONE SERVICE?

Two forms of financial assistance are available through local telephone companies in Idaho to help qualified low-income individuals pay for telephone service.

- ☎ The Idaho Telephone Service Assistance Program (ITSAP) provides a monthly “lifeline assistance” discount for local phone service.
- ☎ The Link Up America program cuts one-half (up to \$30) off the cost of having telephone service installed.

If you have questions regarding these assistance programs, please contact your local telephone company office, your local Community Action Partnership (CAP) office or the Idaho Public Utilities Commission (IPUC).

MORE INFORMATION ABOUT ITSAP AND LINK UP AMERICA

The Federal Communications Commission's (FCC) Universal Service Fund provides a discount of up to \$10.00 on each monthly telephone bill. An additional discount of \$3.50 is provided by the Idaho Telephone Service Assistance Program resulting in a **maximum** monthly savings of \$13.50 for eligible customers.

ITSAP provides a communication "lifeline" to those who might not otherwise be able to afford telephone service. It also enhances the value of service for everyone by increasing the number of people who can be reached on the telephone network. A small surcharge is applied to every Idaho telephone line each month to reimburse local telephone companies for the cost of state discounts under ITSAP. The IPUC reviews the surcharge annually and may increase or decrease the surcharge.

Link Up America was established by the FCC to encourage low-income households without service to connect to the telephone network.
